CGPA 7.66

WORK EXPERIENCE

Associate Intern | Weber Innovations

Noida, UP | Aug 2025 – Present

- Designed and delivered visual assets for digital marketing campaigns, improving brand consistency across social media and web platforms.
- Developed and creative and short-form video content aligned with brand guidelines, contributing to increased audience engagement.

Advertisement Head | MUNify

Faridabad, Haryana | June 2024 – Nov 2024

- Led social media campaigns and digital marketing strategies for a Model United Nations startup.
- Designed and managed ad creatives, reels, and targeted promotions to boost delegate signups.
- Collaborated with content and design teams to maintain brand tone and campaign aesthetics.

PROJECTS

HCC Diagnosis - Deep Learning Segmentation - Python, PyTorch, TorchVision, MobileNetV2, NumPy, Pillow

[\[GitHub\]](#)

- Achieved 95.3% test accuracy on CT scan tumor segmentation using a MobileNetV2 pipeline with HU windowing and CLAHE preprocessing.
- Built an end-to-end NIfTI scan ingestion and slice-wise inference workflow for hepatocellular carcinoma (HCC) classification.
- Applied advanced image preprocessing techniques to improve model generalization on medical imaging datasets.

Team Canvas - RT Collaboration Platform - React, Node.js, Express.js, Socket.IO, Prisma ORM, PostgreSQL

[\[GitHub\]](#)

- Built a multi-user real-time collaboration platform using Socket.IO, achieving sub-100ms latency for live updates across 50+ concurrent users.
- Implemented a secure REST API backend with JWT authentication, Role-Based Access Control (RBAC), and full audit logging using Prisma ORM and PostgreSQL.
- Designed scalable backend architecture supporting concurrent sessions with minimal performance degradation.

Yanegi - Social Discovery Mobile App - Flutter, Riverpod, Firebase, Deep Linking, Firestore, CI tooling

[\[Play Store\]](#)

- Enables users to discover, share, and engage with content through a mobile-first social experience.
- Provides secure sign-in, profile management, and personalized in-app interactions powered by Firebase services.
- Supports real-time data synchronization, media handling, and push notifications for timely updates and engagement.
